

4004

ANNUAL REPORT

OF

Name: WISCONSIN BELL INC

Principal Office: 722 N BROADWAY FL 18
MILWAUKEE, WI 53202-4303

For the Year Ended: DECEMBER 31, 2003

TELECOMMUNICATIONS UTILITY
TO
PUBLIC SERVICE COMMISSION OF WISCONSIN

P.O. Box 7854
Madison, WI 53707-7854
(608) 267-9504

This form is required under Wis. Stat. § 196.07. Failure to file the form by the statutory filing date can result in the imposition of a penalty under Wis. Stat. § 196.66. The penalty which can be imposed by this section of the statutes is a forfeiture of not less than \$25 nor more than \$5,000 for each violation. Each day subsequent to the filing date constitutes a separate and distinct violation. The filed form is available to the public and personally identifiable information may be used for purposes other than those related to public utility regulation.

GENERAL RULES FOR REPORTING

1. The annual report due date is April 1 of the following year. (Example: The 2002 report is due April 1, 2003.) If that date falls on a weekend or holiday, the annual report is due the following business day.
2. **Electronic filing via e-mail is required, unless additional provisional confidential treatment is desired.** Go to the Public Service Commission of Wisconsin's Web Page at <http://psc.wi.gov>, click on the Annual Reports icon, click on Annual Report Programs - Telecommunications, and click the appropriate program for Incumbent Local Exchange Carriers (LECs).
3. LEC entities with no revenues for the report year are required to file a LEC annual report.
4. Unless otherwise indicated, the information requested in this report should be taken from the accounts and other records of the utility in conformity with the Uniform System of Accounts prescribed by the Public Service Commission in docket 05-US-113. The definitions and instructions contained therein should also apply to the report wherever applicable. A query or response concerning information contained in this report regarding any practice or transaction should not be construed as indicating conformity to accounting or other pertinent regulations.
5. Please follow all instructions and answer each question fully and accurately. Provide additional information as necessary to avoid misunderstandings or misleading responses. Abbreviations listed on page 6 may be used. However, please show the exact name of the respondent in full on the Identification and Ownership page.
6. Wherever information is requested in a "note," please show that information in the space provided, or make reference to the adjacent page or insert where the note may be found. Please also identify each note. Footnote capability is included in the annual report software program. Please use it where necessary to fully explain particulars in the annual report.
7. Numeric items are limited to digits (0-9). Do not type commas when entering numbers. A minus sign "-" should be entered in the software program to indicate negative values. The program will convert the minus sign to parentheses if a hard copy of the annual report is printed. Negative values may not be allowed for certain entries in the annual report due to restrictions contained in the software program.
8. Please report all dollar amounts to the nearest thousand dollars.
9. This annual report should be complete in all respects. Unless otherwise authorized, avoid references to returns of former years or to other reports.
10. Wherever schedules call for data from the previous year and such data were reported in the previous annual report, the previous year's data should be reported without modification. If modified, an appropriate footnote indicator and explanation should be included in the current year's annual report.
11. Where part or all of the report is prepared by other than utility personnel, a disclosure is required in the "Individual or firm, if other than utility employee, preparing this report" portion of the Identification and Ownership schedule, which describes the nature and extent of work performed.
12. The LEC annual report program incorporates provisional confidentiality capability for selected items, based on the Commission's confidentiality determination dated January 29, 2003, as supplemented for the new nonregulated schedules and a request for additional confidential treatment dated April 15, 2004.
13. It is not necessary to manually or electronically "sign" the signature page. It is not necessary to file a hardcopy of the annual report with the Commission.

GENERAL RULES FOR REPORTING

14. **Edit Check, Confidential Listing, Exported Annual Report, and Export Status Files; Filing the Completed Report:**

Program edit checks, which are located under the Admin dropdown menu, should be run at the completion of data entry. Each edit problem lists pertinent schedule(s) as well as the nature of the problem (such as "does not equal"). Edit items should be reviewed and corrected; unresolved problems should be footnoted in the report, if necessary. This screen automatically saves the edit checks to an .edt file that may be viewed and edited (for purposes of adding necessary notations) using a word processing package such as WordPad.

The confidential listing, which is located under the Admin dropdown menu, should also be run at the completion of data entry. This will create a .clf file.

Select the annual report to export from the Main-Report Selection window. Click Admin, Export Data to PSC to start the export process. This will create an .mdb file, which will subsequently be encrypted to a file with an .sen extension. An export status file is also created (with a .txt extension). The export status report file may also be viewed in a word processing package such as WordPad. If you encounter any export errors, please contact the Commission for assistance.

The .edt, .clf, .sen, and .txt files will be zipped to a file with a .zip extension. An e-mail message will be created, addressed to pscrcs@psc.state.wi.us. The .zip file is automatically attached to the e-mail message. After the e-mail is created, it will automatically be sent to the Commission.

Once received and processed by the Commission, you will receive a response indicating that your annual report has been received and is being processed. You will be notified if there are any problems with the annual report filing.

15. **Name Changes:**

If a name change (e.g., the new name, the date of the change, and the affected entities with their respective four-digit Commission identification numbers) is identified in the report, documents from the State of Wisconsin Department of Financial Institutions (DFI) also must be submitted to the Commission:

A domestic corporation should send a copy of the stamped page from its Articles of Amendment as filed with DFI. A foreign corporation should send a copy of their Amended Certificate of Authority as issued by DFI.

These documents can be obtained by:

1. Calling DFI at (608) 261-7577;
2. Contacting DFI on the web at <http://www.wdfi.org>; or
3. By writing to DFI at P.O. Box 7846, Madison, WI 53707-7846.

A name change is not effective in the Commission's records until a separate notification letter is sent to the Commission including documentation to confirm registration of that change with the State of Wisconsin Department of Financial Institutions.

16. **Changes to the Annual Report Subsequent to Filing:**

If making revisions to the report subsequent to an electronic filing with the Commission, resubmit the report via e-mail following the procedures set forth above in item number 14. New edit check, confidential listing, exported annual report, and export status files should be created as a result of the revisions.

Revisions to an annual report previously filed on a manual basis also require a new complete manual filing.

GENERAL RULES FOR REPORTING

SIGNATURE PAGE

I Mr. Scott A. Jansen of
(Person responsible for accounts)

WISCONSIN BELL INC, certify that I
(Utility Name)

am the person responsible for accounts; that I have examined the following report and, to the best of my knowledge, information and belief, it is a correct statement of the business and affairs of said utility for the period covered by the report in respect to each and every matter set forth therein.

Mr. Scott A. Jansen 06/24/2004
(Person responsible for accounts) (Date)

Director Regulatory Finance

ANNUAL TELECOMMUNICATIONS REPORT GLOSSARY OF TERMS

Access Line	Central office line equipment, or equivalent, and all outside plant facilities, or equivalent, required to connect the serving central office with the customer premises via physical connection, frequency transmission, and/or time slot transmission. From an engineering perspective, a channel connection is at a DS0 level. A DS0 level is a 4 KHz voice channel or a 64 kilobits per second digital channel.
Analog Signal	A signal that varies in a continuous manner such as voice or music. An analog signal must be contrasted with a digital signal which can assume only discrete values.
Cellular System	A high capacity land mobile radio system in which an assigned frequency spectrum is divided into discrete channels that are assigned to a cellular geographic serving area.
Central Office	A switching unit in a telephone system providing service to the general public, having the necessary equipment and operating arrangements for terminating and interconnecting lines and trunks.
Centrex	A service for customers with many stations that permits station-to-station dialing, one listed directory number for the customer, direct inward dialing to a particular station and station identification on outgoing calls. The switching functions are performed in a central office (stand alone, host or remote).
Channel	An electrical communications path between two or more points. A single pair of wires may provide more than one channel. A channel may also be provided by microwave.
Customer	A person who uses a telephone as a subscriber.
Digital Signal	A signal that has a limited number of discrete states. This may be contrasted with an analog signal that varies in a continuous manner and may have an infinite number of states.
Equal Access	The ability of the subscriber to use any long distance service by dialing the same number of digits.
Exchange	A defined area served by one or more central offices regardless of technical serving arrangements within which the company furnishes service at rates and rules prescribed for that area in the company's filed tariffs. The area is not necessarily marked by political boundaries or the location of host or remote switching units.
Extended Area Service (EAS)	The ability of a customer to call customers in other exchanges at no additional charge or at an additional charge per tariff.
Extended Community Calling (ECC)	The ability of a customer to call customers in other exchanges at rates usually above EAS rates but below toll rates for comparable distances. Rates generally include a duration element.
Feature Group A	Line-side originating and terminating LATA access for which an originating subscriber dials an assigned telephone number that connects to a specific interexchange carrier (IC). The IC returns a tone to signal the caller to input additional generated digits of the called number.

ANNUAL TELECOMMUNICATIONS REPORT GLOSSARY OF TERMS

Feature Group B	Trunk-side originating and terminating LATA access for which an originating subscriber dials a 950-WXXX number (where W=0, 1 and XXX is the carrier access code (CAC)), which is translated to a specific XXX carrier trunk group. Optional rotary dial service and ANI may be available.
Feature Group C	Trunk-side LATA access for AT&T-Communications generally on a direct basis between each end office (EO) and an AT&T-C switching system.
Feature Group D	Also referred to as equal access. It is trunk-side LATA access affording call supervision of an interexchange carrier, a uniform access code (10XXXXX), optional calling party identification, recording of access-charge billing details and presubscription to a customer specified interexchange carrier.
FX-IN	A nonswitched service where the customer of the company is connected to and receives switching service through central office equipment located in another exchange area.
FX-OUT	A switched service where facilities are provided from the central office out to the exchange boundary where it meets the line from a foreign exchange subscriber.
Host Switching System	A switching system that provides centralized control over most of the switching functions of one or more remote switching units. The host switching system usually provides trunk access to the operating company intraLATA networks.
Local Access Transport Area (LATA)	A geographic area within which an operating company may offer its telecommunications services.
Mobile Telephone	A service which provides radio telephone communication from a mobile vehicle to another vehicle or to a regular telephone.
Paging	A service which provides one-way signal or voice communication over a radio channel to a miniature receiver carried by the customer.
Pair	Two wires of a single circuit.
Pay Station	A telephone which normally requires all users to deposit one or more coins or use a credit card to complete a call.
Private Line Service	Channel or circuit rented for private use and not intended to be connected to the general distribution system.
Private Branch Exchange (PBX)	A manually, or operator controlled switching system, usually on the customer's premises, which serves that customer's telephones over a common group of lines from the central office.
Radio Common Carrier (RCC)	A company which furnishes public telecommunications service using one or more radio channels.
Remote Switching Unit (RSU)	An electronic switching system that is remote from its host or control office. All of the central control equipment for the RSU is located in the host switching system.

ANNUAL TELECOMMUNICATIONS REPORT GLOSSARY OF TERMS

Route Miles	<p>Total number of route miles (to the nearest mile) of operating plant facilities including drop wire in the exchange. One route mile may consist of:</p> <ol style="list-style-type: none">1. One mile of roadway with any combination of outside plant facilities on any number of rights-of-way.2. One mile of a cross country route with any combination of outside plant facilities.3. One mile of point-to-point microwave or radio link.4. One mile of plant on either side of a limited access highway or natural barrier, such as a navigable waterway.5. One mile of joint use line where the utility either owns the facility or leases space.
Stand Alone Switch	<p>A central office switch which has no remote switching units (RSUs) subtending it.</p>
Trunk	<p>A communications path connecting two switching systems in the establishment of an end-to-end connection.</p>
Wide Area Telephone Service (WATS)	<p>Customer leased access line or lines connected to the nationwide network over which an unlimited number of calls can be made for a fixed monthly charge.</p>
Wire Center	<p>The location of one or more local switching systems. A point at which customers' loops converge.</p>

ABBREVIATIONS USED IN ANNUAL REPORTS

Acct	Account
Accum	Accumulated
Acq	Acquisition
Admin	Administrative

Total Nonoperating Income	(58,133)	(56,025)	
Net Income	55,308	111,477	

NOTES TO INCOME STATEMENT OR BALANCE SHEET

In the space provided below, disclose all material information not included elsewhere in this report that is necessary to make the financial statements clear and understandable. Included should be:

1. A summary of significant accounting policies. (The summaries should disclose, but not be limited to, the utility's accounting policies with regard to pension cost, unbilled revenues, depreciation, and income taxes.)

A summary of significant accounting policies and reporting notifications:

Basis of Accounting: The financial statements have been prepared in accordance with Generally Accepted Accounting Principles (GAAP) to the extent permitted by the Uniform System of Accounts (USOA) prescribed by the Commission in Docket 05-US-113 dated December 20, 2002.

Reporting Requirements: Effective October 1, 1990 the Commission directed Wisconsin Bell, Inc., d/b/a SBC Wisconsin, to implement SR accounting and reporting requirements per Final Order in Docket 6720-TR-104 dated September 5, 1990. Accordingly, the 2003 PSCW Annual Report is presented on an SR accounting basis.

Revenues: Revenues are recorded when earned. A review of the USOC/account assignments was conducted during 2003 resulting in revised revenue account classifications for certain products. A reclassification was recorded in 2003 that adjusted revenues in accounts 5001, 5040, 5060, 5081, 5082, 5083, 5100, 5260 and 5280. There was no impact to the Total Operating Revenues as a result of the reclassification. The uncollectible revenue decreased in 2003 due to fewer losses from retail customers, a decrease in bankruptcy filings by wholesale customers and a reversal of bad debt reserves as a result of a settlement with WorldCom.

Depreciation: Effective January 1, 2003 new intrastate depreciation rates were implemented per Docket 05-DT-105 dated December 20, 2002. The company achieved a composite depreciation under the 9.25% allowance while maintaining the "net salvage" thresholds for each asset category. The 5-year amortization of small value items associated with FCC docket 95-60 that commenced in January 1998 terminated in December 2002. No additional amortization expense associated with these small value items was recorded in 2003 in account 6560.

Allowance for Funds Used During Construction (AFUDC): Effective 09-01-95 the calculation of AFUDC changed per Supplemental Order in Docket 05-US-102 dated October 31, 1995. The capitalization base changed from long-term telephone plant under construction (TPUC) to all TPUC (Account 2003). The capitalization rate changed from prime rate to average cost of debt.

SFAS No. 123/148: Effective January 1, 2002, SBC Communications Inc. adopted the fair value method of accounting for employee stock options prescribed in SFAS 123 - Accounting for Stock Based Compensation - for all of its Operating Telephone Companies (e.g. Wisconsin Bell, Inc.). Consistent with its adoption for SEC reporting, SBC's Operating Telephone Companies elected to use the retroactive restatement transition method provided for in FAS 148 - Accounting for Stock Based Compensation - Transition and Disclosure

NOTES TO INCOME STATEMENT OR BALANCE SHEET

In the space provided below, disclose all material information not included elsewhere in this report that is necessary to make the financial statements clear and understandable. Included should be:

SFAS No. 133: On May 9, 2001, SBC Communications notified the Federal Communications Commission of their intent to adopt Statement of Financial Accounting Standard No. 133 regarding "Accounting for Derivative Instruments and Hedging Activities". To date there has been no impact to Wisconsin Bell, and no derivations or transition adjustment was required to the Income Statement.

SFAS No. 87: Effective 01-01-87, Ameritech adopted the provisions of Statement Financial Accounting Standards No. 87 (SFAS 87), "Employers' Accounting for Pensions". SFAS 87 specifies the determination of pension expense based on the projected unit credit actuarial method.

SFAS No. 106/112: In accordance with PSCW approval on 10-28-93, the Company adopted the provisions of Statement of Financial Accounting Standards No. 106 (SFAS 106) "Employers' Accounting for Postretirement Benefits Other than Pensions" and Statement of Financial Accounting Standards No. 112 (SFAS 112), "Employers' Accounting for Postemployment Benefits" retroactive to 01-01-93. SFAS 106 requires the cost of postretirement benefits granted to employees to be recognized as expense over the period in which the employee renders service and becomes eligible to receive benefits. SFAS 112 requires accrual accounting for the cost of postemployment benefits provided to former or inactive employees after employment but before retirement.

-
2. A summary of significant contingent assets and liabilities existing at year end, including a brief explanation of any action initiated by the Internal Revenue Service, Wisconsin Department of Revenue, or the utility involving a possible assessment or refund of taxes.
-
3. The notes should include an explicit and precise explanation of any retained earnings restrictions and should state the amount of retained earnings affected by such restrictions.

12/15/03	New Service - DS3	\$314,305

2. Additional matters of fact (not elsewhere provided for) which respondent may desire to include in its report.

AFFILIATE ABBREVIATIONS

In column (b) provide the abbreviation for the name of the affiliate shown in column (a). Limit abbreviations to 10 characters or less. Use these abbreviations when completing the affiliated interest schedules. Insert "Other" in the Abbreviations column if the activity to be reported for a particular record in the Affiliated Interest Transactions or Affiliated Assets and Liabilities schedule represents an aggregation of activity not exceeding the dollar or percentage limits set forth in the header of that schedule.

AFFILIATED INTEREST TRANSACTIONS

Provide a summary of transactions under established affiliated interest contracts and arrangements (see Wis. Stat. § 196.52, for "affiliated interest" definitions). Use the space below to report transactions with individual affiliates and multiple affiliated interest agreements or, at the utility's option, with individual affiliates and a single agreement. Activity associated with affiliated contracts or arrangements not in excess of \$25 (,000) or 5 percent of the equity of the utility, whichever is smaller, may be aggregated in a single record. For utilities whose intrastate gross operating revenues of the previous year exceeded \$100,000 (,000), individual contracts or arrangements not exceeding \$100 (,000) may be aggregated in a single record. Where an affiliate is both providing and receiving service use one record to show billings to and a second record for billings from. When billings to or from an affiliate are recorded on the books of the utility, the records underlying such billings shall be sufficient to show all the detail maintained to identify the associated accounts related to the billing.

SERVICE DATA - END OF YEAR (cont.)

Access Line--Central office line equipment, or equivalent, and all outside plant facilities, or equivalent, required to connect the serving central office with the customer premises via physical connection, frequency, and/or time slot. From an engineering perspective, a channel connection is at a DS0 level. A DS0 level is a 4 KHz voice or 64 Kilobits/second. Customer--A person who uses a telephone as a subscriber.

GENERAL, SCHEDULE LEVEL AND SCHEDULE LINE FOOTNOTES**General Footnote****Schedule Footnotes****Central Office Data - End of Year Footnote. Page 55**

Lines 24, 25, 31, 32, and 33 - Services are not available from Wisconsin Bell, Inc.

Line 39 - An additional 386 fiber sheath miles are accounted for that are not directly attributable to a specific wire center. These additional miles take into consideration fiber placed outside SBC operating territory but used strictly by the company in providing services such as 9-1-1, Operator Services, OCS, etc...

Lines 18-23, and 28-39 - In wire centers with more than one switching entity, general wire center data is reported under the digital switch in that office.

Pursuant to agreement with the PSCW staff, (reference: March 1, 1999 e-mail from Mr. Kevin Klingbeil), required data (including CLLI Code) for eight Wisconsin Bell access tandems that only switch toll traffic is provided below:

Schedule Line Footnotes

GENERAL, SCHEDULE LEVEL AND SCHEDULE LINE FOOTNOTES

- 0)** The source of the write-off calculation is Tab 6 of the 2003 Earnings Monitor Report.
- A)** The accounts receivable (1180 and 1190) and allowances for doubtful accounts (1181 and 1191) balances were reported in the new accounts (1170 and 1171) established in docket 05-US-113. As requested in the Final Decision, the following balances were recorded in subsidiary records for EOY 2003:

Telecommunications Accounts Receivable (1180): \$126,940,410
Other Accounts Receivable (1190): \$7,350,537

Accounts Receivable Allowance - Telecom (1181): \$23,878,373
Accounts Receivable Allowance - Other (1191): \$159,418

- B)** The notes payable (4020) balance was included in Account 4000 established in docket 05-US-113. As requested in the Final Decision, the notes payable EOY balance for 2003 was \$92,603,373.
- C)** The funded debt (4210), obligations under capital leases (4250), advances from affiliated companies (4260) and other long-term debt (4270) balances were reported in new account 4200 established in docket 05-US-113. As requested in the Final Decision, the following balances were recorded in the subsidiary records for EOY 2003:
- Funded Debt: \$275,000,000
Obligations under Capital Leases: \$0
Advances from Affiliated Companies: \$0
Other Long-Term Debt: \$0

GENERAL, SCHEDULE LEVEL AND SCHEDULE LINE FOOTNOTES

- D)** The docket number on Page 15 of the PSCW Annual Report was reported as "Various" for the affiliates listed below. These affiliates have multiple agreements with Wisconsin Bell filed under the following docket numbers:

Ameritech Advanced Data Services (AADS): 6720ATF135, 6720ATF172, 6720ATF184, 6720ATF192, 6720ATF193, 6720ATF194

Ameritech Services, Inc. (ASI): 6720ATF004, 6720ATF182

Southwestern Bell Communication Services, Inc. (SBCLD): 6720ATF149, 6720ATF165

SBC Services, Inc. (SBS): 6720ATF132, 6720ATF154, 6720ATF190

Ameritech Credit Corporation (ACC): 6720ATF178, 6720ATF183

SNET Diversified Group (SNETDG): 6720ATF188, 6720ATF189

Name Change: SBC Technology Resources, Inc. changed its name to SBC Laboratories, Inc. on June 13, 2003. The abbreviation of "TRI" has now been assigned to SBC Laboratories on page 14.

The percent of affiliates business billed to affiliated regulated utilities for certain records could not be entered due to software problems. Please contact Wisconsin Bell, Inc., for specifics.

- E)** The intangible assets recorded in Account 2690 are right-to-use fees (RTU) software related fees that are amortized over a 3-year period using a straight-line amortization method. The amortization is recorded in Account 3500.
- F)** These amounts represent miscellaneous transfers and adjustments. This includes reclassifications of plant and corporate adjustment entries which do not include an initial expenditure.
- G)** See p. 9 NOTES TO INCOME STATEMENT OR BALANCE SHEET for revenue variance information.

GENERAL, SCHEDULE LEVEL AND SCHEDULE LINE FOOTNOTES

- H)** Account 6110 - Total Network Support Expense; Expense reduction attributable to lower motor vehicle expenses in account 6112 due to network expense management initiatives.

Account 6410 - Total Cable & Wire Fac. Expense; Increase of \$12M in buried cable expense (account 6423) and increase of \$3M in underground cable expense (account 6422) due to increased labor and benefit expenses partly offset by lower contract labor. Decrease of \$1M in conduit systems expense (account 6441) from lower contract labor. Decrease of \$1M in poles and aerial cable expense (accounts 6411 and 6421).

Account 6510 - Total Other PP&E Expense; Decrease in provisioning expense (account 6512) from service companies due to less material placement in 2003, i.e., less construction expenditures.

- I)** An additional 386 fiber sheath miles are accounted for that are not directly attributable to a specific wire center. These additional miles take into consideration fiber placed outside SBC operating territory but used strictly by the company in providing services such as 9-1-1, Operator Services, OCS, etc...
- J)** Overall usage increases from 2002 to 2003 are attributed to increases in UNE-P usage and the introduction of residence and business local toll inclusive calling packages.
- K)** Line 1 represents analog data. Lines 2 through 10 contain only non-switched data. Lines 7-9 are counted by NODES vs channel terminations. To arrive at the channel termination counts the total equivalent access line capacity for each category (Lines 7-9) was divided by the given ratio of channel terminations to equivalent access lines.
- M)** Negative accrual amounts in column (c) were journalized in 2003 to prevent accumulated depreciation from exceeding investment net of salvage value (Docket 05-DT-105).
- N)** Per the net salvage allowances in Docket 05-DT-105 for these accounts (2422.2, 2424.2, 2426.2, and 2411), the Accumulated Depreciation Schedule EOY balance in column (l) appropriately exceeds the Plant in Service Schedule EOY balance in column (h) for these accounts.
- P)** Negative accrual amounts in column (e) were journalized in 2003 to prevent accumulated depreciation from exceeding investment net of salvage values.
- Q)** Non-serving switch is: Burnett, PSC ID 0820, CO #1
Serving switch is: Beaver Dam, PSC ID 0380, CO #1

Customers in Burnett, PSC ID 0820, CO #1, are served by Beaver Dam, PSC ID 0380, CO #1. All data reported for Burnett is the same data as Beaver Dam except for lines 15, 16, and 17 which were derived per PSC directive based on a ratio of access lines for use in the non-serving switch to access lines in use for the serving switch.

GENERAL, SCHEDULE LEVEL AND SCHEDULE LINE FOOTNOTES

- R)** Non-serving switch is: Kenosha, PSC ID 2680, CO#2
Serving switch is: Parkside, PSC ID 4110, CO #1

Customers in Kenosha, PSC ID 2680, CO #2, are served by Parkside, PSC ID 4110, CO #1. All data reported for Kenosha is the same data as Parkside except for lines 15, 16, and 17 which were derived per PSC directive based on a ratio of access lines for use in the non-serving switch to access lines in use for the serving switch.

- S)** Non-serving switch is: Menomonee Falls, PSC ID 3310, CO #2
Serving switch is: Milwaukee, PSC ID 3420, CO #20

Customers in Menomonee Falls, PSC ID 3310, CO #2, are served by Milwaukee, PSC ID 3420, CO #20. All data reported for Menomonee Falls is the same data as Milwaukee except for lines 15, 16, and 17 which were derived per PSC directive based on a ratio of access lines for use in the non-serving switch to access lines in use for the serving switch.

- T)** Non-serving switch is: Merton, PSC ID 3370, CO #1
Serving switch is: Hartland, PSC ID 2270, CO #1

Customers in Merton, PSC ID 3370, CO #1, are served by Hartland, PSC ID 2270, CO #1. All data reported for Merton is the same data as Hartland except for lines 15, 16, and 17 which were derived per PSC directive based on a ratio of access lines for use in the non-serving switch to access lines in use for the serving switch.
